Introduction

The Slavery & Trafficking Risk Template (STRT) is a standardized open-source template you can use to share slavery and human trafficking-related risk and compliance data with your customers.

The STRT empowers you to disclose information to your customers that will assist them in their efforts to strengthen their compliance programs in the fight against human trafficking and slavery. Once you’ve shared this information with your customers, they can then prioritize and implement risk mitigation actions with the goal of fortifying their organization as well as yours against illegal and unethical practices.

Why Am I Being Asked to Complete the STRT?

You have been asked to complete the STRT because one or more of your customers is collecting data from their supply chain on high-level indicators of human trafficking as well as indicators of compliance with human trafficking and slavery legislation. You may be completing the STRT as part of your own internal efforts to gauge your organization’s risk level as it relates to human trafficking and slavery.

If your customer, or customers, have requested that you submit the STRT, this does not mean that you are suspected of using trafficked and forced labour. It simply means that your customer, or your customers, is seeking to better understand risk in their supply chain for the purpose of mitigating or preventing this risk.

How It Works

The STRT is an interactive document. Each question is structured to gain specific information related to human trafficking, slavery and compliance risk. The template records the answer to each question, then runs logic algorithms to check the data’s accuracy and validity.

Once the template is completed with valid information, you should submit it, along with any supporting documentation, to your customers upon their request. The data gathered helps your customers to implement human trafficking-related risk mitigations actions.
Filling Out the STRT:
A Step-by-Step Guide

The STRT is separated into six sections, or tabs. These tabs are:

- Introduction
- Declaration
- Countries
- Industries
- Review
- Glossary

This document explains each tab, along with instructions on how to complete each section.

Introduction

When completing the STRT, you will begin on the Introduction tab. It includes an introduction to the STRT, an explanation of how it works, and an overview of each of the tabs so users are able to complete the template accurately.

Refer to this tab at any time for clarification on the purpose of the STRT or any tabs it contains.

Declaration

The Declaration tab represents the bulk of the STRT. In this section, you will respond to a series of questions designed to assess risks of slavery and human trafficking and non-compliance with human trafficking and slavery regulations.

The Declaration tab is separated into several categories. Each category contains questions pertaining to specific slavery and human trafficking-related topics.

The STRT is now available in English, French, Spanish, German, Chinese, Japanese and Portuguese. You can select your preferred language from the drop-down box at the top of the Declaration tab. Once a language is selected, the STRT will automatically translate.

VERSION

This section identifies the STRT version. You should always use the most recent version of the STRT, as listed on the www.sraglobal.org website. This field is auto-populated by the STRT and is for reference and version control only.
